

AI Knowledge Check with Answer Key

Assessment sample

Portfolio sample: original, sanitized, and created for demonstration purposes. No confidential, proprietary, government-controlled, client-sensitive, or internal employer materials are included.

Knowledge Check: AI Literacy Basics

1. Which prompt is strongest?

- A. Write something about reports.
- B. Summarize the attached meeting notes in 5 bullets for a project manager, highlighting decisions, risks, and next steps.
- C. Make this better.
- D. Tell me what to do.

Answer: B

2. What should a learner do before sharing AI-generated content externally?

- A. Assume it is accurate.
- B. Remove all context.
- C. Review it for accuracy, privacy, tone, and policy alignment.
- D. Ask AI to approve it.

Answer: C

3. Which is a responsible AI practice?

- A. Entering sensitive data into any tool.
- B. Verifying facts before using output.
- C. Skipping human review.
- D. Letting AI make final decisions without oversight.

Answer: B

4. What is the purpose of examples in a prompt?

- A. To make the prompt longer.
- B. To show the preferred style or output pattern.
- C. To hide the task.
- D. To replace the need for instructions.

Answer: B

5. Why should constraints be included in a prompt?

- A. They define boundaries and quality expectations.
- B. They make the AI ignore the task.
- C. They only matter in coding prompts.
- D. They are optional and never useful.

Answer: A

Facilitator Note

Use missed questions to guide discussion. Ask learners to explain why an option is safe, accurate, or appropriate instead of focusing only on the correct letter.
