

Learning Objectives and Assessment Alignment

Sample alignment table and rubric

Portfolio sample: original, sanitized, and created for demonstration purposes. No confidential, proprietary, government-controlled, client-sensitive, or internal employer materials are included.

Learning Objectives and Assessment Alignment

Objective	Learning Activity	Assessment Evidence	Success Criteria
Identify responsible and irresponsible AI use cases.	Case study sorting activity.	Scenario-based questions.	Learner selects safe action and explains why.
Write a prompt using task, context, format, constraints, and examples.	Prompt rewrite practice.	Prompt submission scored with rubric.	Prompt includes all required components and produces usable output.
Evaluate AI-generated content for accuracy and risk.	Red flag review exercise.	Checklist application.	Learner identifies at least 4 of 5 issues.
Apply AI to a workplace task.	Capstone workflow activity.	Submitted workflow plan.	Workflow includes human review and clear output standards.

Mini Rubric: Prompt Quality

Criteria	Needs Work	Meets Expectations	Strong
Context	Little or no background included.	Relevant background included.	Background is specific, accurate, and learner-centered.
Task	Task is unclear.	Task is clear.	Task includes audience, purpose, and desired action.
Format	No output format given.	Output format is stated.	Format includes length, structure, and tone.
Constraints	No limits or standards given.	Some limits given.	Constraints include risks, exclusions, and quality standards.
